

Send Your Personality

Next to a personal call, a telephone call has more personality than any other form of communication.

No letter or telegram can give the force, the shading, the delicate emphasis that a telephone call can give to what you want to say.

You'll find it's cheaper, too, (say within a radius of 50 miles) if you figure in stenographers' wages, and the cost of equipment, stationery, and postage for you and your correspondent—your letter or telegram usually requires an answer.

There will be no toll charge on a particular party call if you are not connected with the person whose name you have given to the Toll Operator.
